## MATERIAL GUIDE

Most of our products are available in the following types of weave.

SINGLE JERSEY

Fine course knit fabric with characteristic dendritic columns on the outside and arches on the reverse side. The weave features ductility, softness and easy unstitching. The thread utilized to make the fabric influence the quality of the final product. Our products are manufactured from high quality ring spun thread. The material is ideal for printing and embroidery. These items are manufactured in various weights (145 – 200 g/m<sup>2</sup>).

PIQUE

Course patterned knit fabric with a three-dimensional geometric pattern. The double jersey weave is supplemented with an underlying thread that ensures very little stretching in width. Products are suitable for printing and embroidery. These items are manufactured in various weights (170 – 220 g/m<sup>2</sup>).

INTERLOCK PIQUE

This is weft knitted interlock fabric with a pattern in which two fully interlocking rows alternate with a one-face row. One side of the knitted fabric has twilled separate stitches while the other side is plain. This knitting has reduced extensibility. These items are manufactured in 150 g/m<sup>2</sup> weight.

FLEECE

Course knit fabric with a characteristic dense teased soft surface and outstanding insulating attributes, suitable for all kinds of weather. It is able to conduct sweat away and stop wind from penetrating. Products are suitable for embroidery and laser engraving. These items are manufactured in various weights (250 – 360 g/m<sup>2</sup>).

FILLERS

Course knit fabric with characteristic dendritic columns on the outside and arches on the reverse side. The weave is enhanced with supplementary thread that leads along the reverse side of the fabric. The supplementary thread increases absorption as well as the volume of the fabric and adds to its strength. Filler fabrics with voluminous and soft thread are teased for greater insulation. Products are suitable for printing and embroidery. These items are manufactured in various weights (250 – 320 g/m<sup>2</sup>).

SOFTSHELL

Softshell is a laminated textile for modern and sports clothing and clothing for outdoor activities. It is divided into membrane and non-membrane. Clothing made from this material is light, warm, elastic and has high mechanical resistance. Softshell with a membrane can be waterproof and simultaneously air permeable. These items are manufactured in various weights (210 – 300 g/m<sup>2</sup>).

CLOTH

Cloth fabric is made of strong, regularly repeating weave. It does not make a pattern. It is smooth and suitable for printing and embroidery. The threads of the weave can be reinforced. These items are manufactured from high quality combed or cut cotton, PES or PAD.

POPLIN

Poplin in its early days was made by using a silk warp weave and a worsted yarn weft. The result is a sturdy fabric that has noticeable ridges. Today poplin is popular in shirts and pants and is often a combination of softer and heavier grades of cotton. Because of its manufacturing process, it tends not to wrinkle easily. These items are manufactured in various weights (120 – 125 g/m<sup>2</sup>).

TWILL

Twill fabric features diagonal spacing that is regularly repeated. The fabric is looser, warmer, softer, and more elastic than cloth. It is suitable for printing and embroidery. These items are manufactured from high quality combed or cut cotton or from mixtures with polyester.

TERRY

Loop fabric made of quality cotton in higher weights (350 – 450 g/m<sup>2</sup>) that is absorbent, soft to the touch and has firm loops on both sides.

## Graduation Regalia

The right college regalia includes a cap, gown and hood or accessory for every student. Your ensemble begins with the basic cap and gown and can be customized from there. Ordering top quality basic graduation pieces for your commencement day is an investment and results in a much lower annual cost than renting; once you have your basic university regalia, you need only add fresh tassels and signets for each graduating class.

Our proposed regalia is crafted from comfortable but durable 100% polyester in a variety of colors; and several specialty finishes. We offer a full rainbow of colors to choose from, including shades that match most major college teams and academic disciplines.

It's easy to honor your top graduates by simply varying the color of your college regalia; gold and silver are popular options for showcasing honors students.

Our proposed Regalia collection includes :

- Formal caps & gowns designed to fit and flatter your students
- Long lasting, timeless designs allow for years of use
- Honors hoods, sashes and cords make it easy to showcase your top students on graduation day

Tip: Need to make sure you get great graduation portraits? Our matte finish robes are glare free and ideal for portrait and candid photography!
